Section 99-00090-03-TL  
Woodside Road & Iron Bridge Road  
T03-0046

294328R

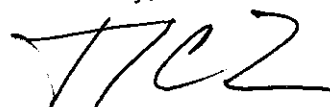

Dear Sir:

Our contractor has installed a taller traffic signal post at Station 102+11.34, 27.71 feet left, to accommodate the mounting of a pedestrian signal head and a traffic signal head for eastbound traffic on Woodside Road. This installation was completed on November 9, 2004 per written approval from your office on November 5, 2004. The Illinois Department of Transportation verbally approved our request a short time after receiving our request through a letter dated October 22, 2004.

The above-mentioned work was also the last item to be completed on the project. Therefore as of November 9, 2004, the above-referenced project has been completed.

If there should be any questions or comments regarding this request, please feel free to give me a call.

Sincerely,

TIMOTHY C. ZAHRN, P.E.  
County Engineer
